PROFILE SUMMARY

Dynamic and resourceful Full Stack Developer with a Diploma in ICT and extensive training in MERN stack and advanced front-end development. Proven ability to design and deploy secure, user-friendly applications. Strong foundation in both relational and NoSQL databases, API development, and UI/UX design. Passionate about using technology to solve real-world problems, with hands-on project experience.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, UI/UX Design, Responsive Web Design, SASS/LESS

Back-end: Node.js, Express.js, Python (basic), REST APIs, Object-Oriented Programming

Database: MongoDB, Mongoose, MySQL, SQL Workbench, CRUD Operations, Database Architecture

Tools & Platforms: Git, GitHub, Vite, Postman, Render, Vercel, Netlify

Other: Microsoft 365, Microsoft Office Suite, Troubleshooting & Maintenance

Soft Skills: Communication, Multitasking, Teamwork, Problem-solving, Organizational skills

EDUCATION & TRAINING

ALX Africa — Front-end Professional Development (Ongoing) (2025)

- Mastering advanced front-end technologies: React, Next.js, TypeScript
- Building scalable, responsive, and production-ready UI solutions

Power Learn Project (PLP) Africa — Full Stack Web Development (MERN) (Jan 2025 – Jul 2025)

- Completed 6-month intensive training in MongoDB, Express.js, React.js, and Node.js
- Built and deployed full-stack projects, including JobTrack and Student Feedback Tracker

EldoHub Tech Academy — Full Stack Web Development (Feb 2024 – Dec 2024)

- Built dynamic full-stack apps with Node.js, MySQL, and JavaScript
- Created SpendWise App and documented development workflows

Moi University — Bachelor's Degree in Community Development (Graduated Dec 2023)

Diploma in Information Communication Technology (ICT)

PROJECTS

JobTrack – Full Stack Job Tracking App (React, Node.js, MongoDB, Tailwind CSS)

- Users can search, filter, save, and track job applications
- Built full RESTful backend and responsive frontend UI
- Used localStorage and MongoDB to persist application state

SpendWise – Personal Finance App (Node.js, MySQL, Express.js, JavaScript)

- Tracks income, expenses, savings, and debts with real-time updates
- Features include user authentication, clean UI, and intuitive dashboards

Weather App – API-Integrated Weather Application (JavaScript, HTML, CSS)

- Displays real-time weather updates using a public weather API
- Focused on API integration and user-friendly interface design

VibeWave – Single Page Application (Vanilla JS, HTML, CSS)

- Consumed a public API to display live dynamic content
- Focused on simplicity, JavaScript fundamentals, and responsiveness

Student Feedback Tracker (React, Tailwind CSS, LocalStorage)

- Lightweight React app for collecting and displaying feedback
- Emphasized reusable components and local state management

CERTIFICATIONS & MEMBERSHIPS

- First Aid & CPR Certified
- Child Protection Training
- Member, Red Cross Society of Kenya (Lifetime) • Member, Kenya National Association of Social Workers – Rift Valley Branch
